APPLICATIONS

OCEAN-CARE 80 is a solvent based product for use on heavy crude oil slick at sea as well as for cleaning on deck after oil spillage. It should be applied in the form of fine droplets that are spread over the contaminated sea-surface. For small areas, e.g. spillage on deck, minor oil slicks in harbours etc, flicking a brush with chemical and it will sufficient to clean, after that flush with water. On large slick at sea, **OCEAN-CARE 80** should be applied from workboat and equipped with spray nozzles mounted on boom extending from either side of the boat. The consumption of chemical may depend on the thickness of the oils slick, boom length of the workboat, speed of the workboat and pumping capacity.
